Resource Guide

About René Veugelers

As a Coordinator specialising in Children Focusing with an emphasis on the non-verbal world, I teach parents, therapists, teachers and others how to be with children in a Focusing way, how to (re)connect to their own inner child experiences and how to integrate creativity and flexibility into their life and work.

My experiences as an Art therapist embraces an expanded richness of creative elements and support a natural unfolding of creative process. I live and work in the Netherlands and teach internationally. I'm an inspiring teacher who brings considerable experience, subtlety, and joy to every person attending my workshops or training.

Event Details

Wouldn't it be great to transfer your inner knowledge and life experience to children, and provide them with skills that support their unique way of being with themselves and being with their emotions? Working and being with children of any age is experiencing and contacting the vitality in our self and the open congruent connection with a child's story and deeper needs. It is an organic exchange in which the Focusing skills and attitude are very supportive and important.
