# Event Details

In this hour, I will explore proven techniques to help the Client find the path through "The What and Why" model, helping you to reduce the blame and conflict in any given situation, and finding ways to understand, be objective, and solve issues. Specifically in relation to; safety, risk assessment, and unsociable behavior.

# Resources for Participants

I run a truly free resource website, [www.seekingchange.co.uk](http://www.seekingchange.co.uk), which is updated monthly with new ways to help people to understand the human dynamic. It gives people an understanding of the work I do, the awareness I gain through my work, and the tools and interventions that I use in my work with Clients.

I also have a website, [www.intuitivetherapy.co.uk](http://www.intuitivetherapy.co.uk), which explores the intuitive therapeutic interventions that all of us have but mostly are not aware of. This awareness helps us to use transference and counter transference within a therapeutic encounter. Building trust and working alliances easier and more connected.

I also have a counselling and therapy practice which offers therapeutic and mental health interventions from myself and other professionals in Wakefield details which can be found at [www.counsellingwakefield.co.uk](http://www.counsellingwakefield.co.uk).

# Reading

[MORE INFO](#)

This Book or journey is a self-help guide based on over 8,000 hours of counselling practice and the many years of helping myself, and countless Individuals, Couples and Families with their issues and to obtain quality healthy relationships. It will help you to understand why people act the way they do and in doing so will help you to solve the problems that we have and then to have better relationships with anyone that you interact with or you are connected to. That could be Colleagues, Friends, Family, or loved ones. Unless you live on a desert island, and don't interact with other humans, this book will help you to have the life you want instead of the one other people think you should have.

Buy the book and escape the restrictions in your life. It is intended as a helpful aid, but your life is still your life, you need to make decisions and take responsibility for you own actions. These techniques and thoughts are tried and tested; I hope they will help you as much as they have helped me and the countless people I have helped over the years. If you find anything which is not grammatically correct or spelt right then I apologise but I wanted this to be as authentic as it possibly could be to be ME even the dyslexic me. "Have the life you want not the one other people think you should have"
