About Jan Stiff

My interest in the emotional needs of children and young people, began when I was working as a paediatric palliative care nurse where the emotional needs of siblings of terminally ill children and those with life-limiting illnesses, became evident. My journey into counselling this age group began here. My particular interests are in CYP and young adults who are bereaved or pre bereaved, developmental trauma, children and young people of alcoholic parents/carers.

At this present moment, my private practice encompasses a number of roles: I am qualified to offer both Online Counselling and Online supervision, and provide online supervision for practitioners counselling CYP online. I also work as tutor and course director for the Academy for Online Counselling and Psychotherapy, and as the CYP Director for ACTO.
